The Home Builders Association's government relations staff constantly monitors and advocates for our members on issues affecting residential building and development throughout the Portland metropolitan area. From land use to permitting to fees and building regulations, the Home Builders Association is your industry voice.

Community Impact

In 1997, the Home Builders Association founded the Home Builders Foundation, a 501(c)3 non-profit that builds and remodels shelters and transitional housing for those experiencing homelessness in our community. The foundation also provides college scholarships to those interested in pursuing a career in the home building industry.

Connections & Career Development

The Home Builders Association provides business and career development opportunities throughout the year. We host monthly networking events, provide business-to-business and business-to-consumer marketing and sponsorship opportunities and offer online and live CCB continuing education and certification classes. The Home Builders Association also has three councils for focused networking and career development – the Professional Remodelers Organization, the High Performance Council and the Professional Women in Building Council.
